# Timesco

## about us

We are experts in manufacturing and supplying medical products for medical professionals for Anaesthesia, Surgery, Podiatry and Primary Care.

For over 50 years we have produced an unrivalled range of laryngoscopes. Our products are built to exceed internationally recognised quality standards and provide years of trouble free use.

Through unremitting innovation we aim to generate significant positive transformations in the market that will radically enhance laryngoscopy.

# Single Use Sets

## blade & handle sets

Timesco's single use sets have exceptional specifications to reduce cross infection at a cost low enough to justify single use. They provide a ready to use system, therefore increasing time efficiency and convenience.

The sets are available as green fitting (Callisto) or standard light, conventional fitting (Europa) and contain handles that are pre-loaded with batteries or handles that require C sized dry cell batteries (not included).

# Callisto sets

Callisto is the U.K's No.1 single use laryngoscope system. It has been designed to offer a true low cost alternative to reusable blades and handles with exceptional specifications to reduce cross infection, cost, maintenance and processing costs.

## Powerful

Powerful, bright LED bulb in the handle for excellent illumination.

Metal hook bar offering exceptional strength for a single use handle.

## Metal spatula

Metal spatula similar in profile and design to a reusable blade.

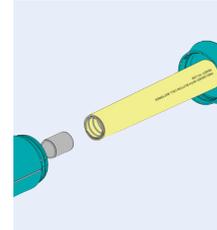

Highly polished 4mm acrylic core for maximum illumination.

## Green fitting

Green ISO 7376 fitting compatible with green ISO 7376 fitting disposable laryngoscope blades.

The handle has an enclosed rear to reduce light from the bulb when a blade is applied.

## Preloaded option

Handles are available preloaded with button cell batteries or empty for C size dry cell batteries to be inserted.

## No touch hook

The blades feature a no touch hook to prevent contact with the handle after use. The blades also have 3 metal ball bearings for secure fitting.

## Clear information

Clearly displays the single use symbol and the CE mark on the base of the handle.

Callisto sets available from Timesco and via NHS Supply Chain:

Timesco Code	Product Description	Pack Quantity	NPC

# Europa sets

Europa is the U.K's No.1 conventional single use laryngoscope system. The bulbs are housed in the blade, not the handle. The range is a low cost alternative to reusable blades and handles with exceptional specifications to reduce cross infection, cost, maintenance and processing costs.

## Powerful

Powerful, bright bulb in the blade for excellent illumination.

Metal hook bar on the handle offering exceptional strength for a single use handle.

## Metal spatula

Metal spatula similar in profile and design to a reusable blade.

## Standard light

Standard light, conventional ISO 7376 fitting handle compatible with standard light ISO 7376 fitting disposable laryngoscope blades.

## Preloaded option

Handles are available preloaded with button cell batteries or empty for C size dry cell batteries to be inserted.

## No touch hook

The blades feature a no touch hook to prevent contact with the handle after use. The blades also have 3 metal ball bearings for secure fitting.

## Clear information

Clearly displays the single use symbol and the CE mark on the handle.
